DOWNLOAD MINECRAFT FOR LINUX

You'll need to own Minecraft for PC/Mac to play the full version. If you haven't bought it already [go here](#) and buy it quick!

INSTALL AND RUN THE GAME

Download the Minecraft.jar file to run the game on Linux or something else. It's executable and should work as-is if you have Java installed (please use Oracle's JVM). If you don't have Java installed, you can [get it here](#).

You'll need an internet connection the first time you launch

DOWNLOAD MINECRAFT FOR LINUX
